A photograph of an industrial facility, likely a Linde plant, featuring several large white storage tanks with blue Linde logos. The tanks are situated under a blue sky with scattered white clouds. In the foreground, there is a complex network of metal pipes and walkways. The overall scene is bright and clear.

THE LINDE GROUP

02. December 2010
Thomas Eisenlohr
Head of Investor Relations

This presentation contains forward-looking statements about Linde AG (“Linde”) and their respective subsidiaries and businesses. These include, without limitation, those concerning the strategy of an integrated group, future growth potential of markets and products, profitability in specific areas, the future product portfolio, anti-trust risks, development of and competition in economies and markets of the group.

These forward looking statements involve known and unknown risks, uncertainties and other factors, many of which are outside of Linde’s control, are difficult to predict and may cause actual results to differ significantly from any future results expressed or implied in the forward-looking statements in this presentation.

While Linde believes that the assumptions made and the expectations reflected in this presentation are reasonable, no assurance can be given that such assumptions or expectations will prove to have been correct and no guarantee of whatsoever nature is assumed in this respect. The uncertainties include, inter alia, the risk of a change in general economic conditions and government and regulatory actions. These known, unknown and uncertain factors are not exhaustive, and other factors, whether known, unknown or unpredictable, could cause the group’s actual results or ratings to differ materially from those assumed hereinafter. Linde undertakes no obligation to update or revise the forward-looking statements in this presentation whether as a result of new information, future events or otherwise.

Agenda

Operational performance

- Positive business performance continues over 9M 2010
- HPO (High Performance Organisation)
- 2010 outlook

Set-up for sustainable profitable growth

- Emerging market footprint
- Business synergies Gases and Engineering
- Energy and Environmental mega-trend
- Healthcare mega-trend

Appendix

Positive business performance continues over 9M 2010 - on track to record earnings

Ongoing recovery momentum drives group sales up 13.1% to €9.405 bn

Group operating profit grows over-proportionately by 23.2% to €2.145 bn

Strong EPS increase with reported EPS up 67.2% to €4.13 and adjusted EPS of €4.88 (+44.4%)

Operating Cash Flow increases by 7.7% to €1.533 bn

Double-digit earnings growth driven by widespread recovery and our HPO initiatives

Emerging markets keep their strong momentum, led by Greater China

Mature regions in Western Europe and the US also show further improvements

HPO savings drive 9M group operating margin up a further 190 bp to 22.8%

Stable growth set-up

Solid financial structure with long-term oriented maturity profile

Well positioned for the mega-trends Healthcare, Energy/ Environment and Emerging Markets

Leverage of technology and customer synergies between our Gases and Engineering set-up

Group, sales by Divisions

Unchanged recovery momentum drives group sales up 13.1%

Gases Division

- Growth momentum intact: comparable* sales increase of 5.7%
- Demand recovery remains visible in all product areas: tonnage and bulk still leading, cylinder accelerating
- Ongoing currency support from weaker Euro: major translational effects on AUD and ZAR

Engineering Division

- Sales on last year's level
- Execution of order backlog remains fully on track

*excluding currency, natural gas price and consolidation effect

Group, operating profit by Divisions

190 bp margin increase supported by our HPO initiatives

Gases Division

- Operating profit* remains on double-digit growth track
- Operating margin up 50 bp yoy to 27.1%
- Continuous focus on HPO: initiatives across all activities leading us to the right set-up for long-term profitable growth

Engineering Division

- Margin of 11.0%, ahead of our 8% target
- Strong margin performance driven by successful project execution

+190 bp on reported basis

+90 bp, adjusted for €80 m restructuring charges in 9M 2009

*EBITDA before non-recurring items and incl. share of net income from associates and joint ventures

HPO (High Performance Organisation)

A holistic approach covering the full value chain in all regions

Based on current consensus expectations for a moderate economic recovery

Group: Growth in sales and over-proportionate operating profit increase vs 2009, operating profit above record year 2008

- Capital expenditure above 2009 level
 - Confirmation of HPO programme: €650-800 m of gross cost savings in 2009-2012
-

Gases: Increase in sales and operating profit vs 2009, exceeding the record levels of 2008

- Strong project pipeline in the tonnage product area
 - Volume improvement in the bulk & cylinder product areas
 - Ongoing structural growth in healthcare
-

Engineering: Sales at least on 2009 level, operating margin of at least 10% well above our 8% target

- Order backlog provides visibility for up to two years
- Further indications of improving investment climate for our key plant types

HPO

A wide spectrum of productivity improving initiatives

From 2009 Quick-start initiatives (Examples) ...

Additional plants rolled into existing Remote Operating Centres (ROCs)

Harmonisation and capability enhancements of existing logistic systems

Pilots to explore and validate best-practice optimisation levers for cylinder filling

Further roll-out of category management resulting in, e.g., increased sourcing from low-cost countries

Further automation and standardisation of management reporting

... to Leading processes by 2012 (Examples)

All plants controlled via Regional and Global ROCs using advanced control systems

One common platform for scheduling and routing in all geographies

Most filling plants employing best-practice processes, optimised plant layout, and uniform performance measurement and management

Harmonised processes, tools & standards across the Group to fully realise the benefits of Linde's buying power

Highly efficient transactional processes in Sales and Administration functions

HPO

More than pure cost cutting

Better leverage synergies between our Gases and Engineering Divisions

- Higher standardisation of ASUs: focus on a limited number of plant types
- Lower lead times: reduced delivery times to less than 24 months
- Lower costs: cut of total installed costs by more than 20%
- Thus making offerings of the Gases Division more attractive to its customers

Support productivity gains by further process excellence in the organisation

- Shared best practices in contract management
- Further improved pricing performance by leveraging best practices

Invest in our employees

- People excellence: make every individual a High Performer in his activity field

Group, Mandatory adoption of IFRIC 4

Expected impact on sales and EBITDA

The Linde Group shows a significant amount of plants as embedded finance leases due to the adoption of IFRIC 4

Sales and EBITDA from IFRIC 4 plants not recognized through reported sales and EBITDA in 2009: **€-120 million**

Receivables from Financial Services (= PV of minimum lease payments):

31/12/2009	€645 million
31/12/2008	€746 million

Important considerations:

- EBITDA multiple comparison with peers needs to be adjusted for IFRIC 4
- Reported operating profit margin for Gases Division in 2009 is 100 bps lower due to EFL
- Reported tonnage sales do not include sales from plants treated under IFRIC4

Very minor impact on EPS, no impact on Free Cash Flow

Group, Accounting considerations

Impact of PPA and EFL

Purchase Price Allocation (PPA)

Impact in 9M 2010: €191 m (9M 2009: €221 m)

Expected impact FY 2010: €200-250 m

Background:

- The difference between the purchase cost of BOC and related acquisitions in Asia and their net asset value has been allocated to assets on the Linde balance sheet (for BOC, see Linde 2007 annual report, p. 99).
- The revaluation of these assets leads to additional depreciation and amortisation charges according to the useful life of the assets.
- Goodwill is not amortised but subject to a yearly impairment test.
- Depreciation & Amortisation from PPA is excluded from the calculation of Adjusted EPS.

IFRIC 4: Embedded Finance Lease (EFL)

Impact* in 9M 2010 : €-89 m (9M 2009 : €-94 m)

Expected impact* FY 2010: €-123 m *(on Sales and EBITDA)

Background:

- Tonnage contracts dedicated to one single customer (> 95% of sales), who covers all major market risks, have to be treated under IFRS like an embedded finance lease.
- The related cash flow streams are therefore no more booked as sales and operating profit but recognised as amortisation of financial receivables in the balance sheet and financial income in the P&L.
- EBITDA multiple comparison with peers needs to be adjusted for IFRIC 4
- Very minor impact on EPS, no impact on Free Cash Flow
